Objective:
Curious and creative Full-Stack Web Developer transitioning from sales to development in the tech industry with eagerness to learn and solve puzzling challenges.

Education:
- **Eleven Fifty Academy, Web Development Immersive Learning Program**   **Indianapolis, IN, October 2021**
  - 26-week immersive learning program for Web Development taught with industry-guided curriculum and real-world project-based learning.
- **Udacity, Front-End Web Development Nanodegree**   **College Station, TX, December 2018**
  - 12-week online learning program designed to equip learners with unique skills for Front-End Web Development by crafting real-world projects guided by industry experts.
- **Bradley University, Bachelor of Science – Business Administration**   **Peoria, IL, December 2014**

Competence and Functional Skills:
Creativity, problem-solving, military and leadership experience, grit, troubleshooting, critical thinking, attention to detail, organization, self-starter, customer service, flexibility, and adaptability

Technical Skills:
Front-End: React, TypeScript, JavaScript, HTML5, CSS, Bootstrap, Material-UI
Back-End: Node, Express, JSON Web Token
Database: PostgreSQL, Sequelize, pgAdmin
CI/CD: Agile, Scrum, Git
Web Technologies: Responsive Web Design, Postman, REST APIs, Firebase, Heroku, MVC

Technical Projects:
- **NeighborHub App:** https://neighborhub-client.herokuapp.com/
  - A full-stack web application utilizing the PERN stack to create a social hub and ticketing system for residential buildings or communities.
  - The app utilizes role-based authentication to ensure specific views are only accessed by allowed users.
  - Some of the technologies used to create this app are TypeScript, React, Express, Node, PostgreSQL, and Sequelize.
- **FlixDB:** https://flixdb-client.herokuapp.com/
  - PERN full-stack application that allows users to create reviews and add movies to a watchlist.
  - Movie data are fetched from The Movie Database API and utilized for full CRUD functionality.
  - Other web technologies utilized for this app are Sequelize, Material-UI, Reactstrap, and JWT authentication.

Professional Experience:
Bedder Way Company   **Indianapolis, IN, October 2020 – Present**
